

Syed Rubayyat Akbar

Senior Software Engineer / Cloud & XR Systems Architect

(347) 593-4399 | Jamaica, NY 11432

syed.r.akbar@gmail.com | github.com/koshai | linkedin.com/in/koshai | syedakbar.co | devpost.com/Koshai

SUMMARY

Senior Software Engineer with 10+ years experience in full-stack development, VR/XR platforms, and defense systems. Specializing in .NET/Blazor, Unity, and distributed applications. Led cross-functional teams delivering mission-critical DoD software. Ready to build impactful products in emerging tech.

KEY SKILLS

Languages & Frameworks:

C# (10 yrs), Python (5 yrs), Java, JavaScript, Typescript, React, SQL, ASP .NET Core, Blazor Server, Unity, Flask, Django, GWT, REST APIs, Lens Studio, NextJS

Platforms & Tools:

VR/XR: Meta SDK, Photon, SteamVR, Spectacles
Cloud: IIS, Hyper-V, AWS, Azure, Air-gapped environments, DoD Systems
Database: PostgreSQL, MS SQL Server
DevOps: GitHub, JIRA, Selenium, CI/CD, Docker

AI Tools:

TensorFlow, LLM tooling (ChatGPT, Claude, Github Copilot, Windsurf, Cursor), Langchain, LangGraph, PineCone

Domains:

Defense Systems, VR/XR Development, Education

EXPERIENCE

Lead Technologist / Cloud Computing Application Architect

Booz Allen Hamilton, Fort Walton Beach, FL | January 2023 – Present

- Led end-to-end development of WORKS data management system; delivered to Air Force 502nd Squadron
- Migrated legacy Access system to Blazor/.NET 8 with backend connected to MSSQL database through server-side Blazor (SignalR); reduced query time from average 45 seconds to under 3 seconds
- Architected secure CAC-authenticated web app on air-gapped IIS/Hyper-V infrastructure
- Built Range Management System using Java GWT framework and NASA WorldWind Web for US Forces Japan; achieved Certification to Field
- Developed KMZ/KML parsers with Python; enabled real-time geospatial feature rendering on WorldWind
- Worked on integrating and processing data from different sources (ADSB, MITS, AIS, DIS)

Awards: Gold Award for Blazor proposal (won contract), Silver and Bronze for WORKS delivery

Senior Consultant / Staff Engineer

Booz Allen Hamilton, Fort Walton Beach, FL | September 2020 – December 2022

- Developed MACE plugin integrating hardware controllers for U28 aircraft simulation; built in C#/.NET
- Built VR Common Operating Picture with real-time radar entity capture; integrated SteamVR and ARMOR
- Debugged NASA WorldWind Web repository; enabled high-fidelity satellite tile placement for DoD Java applications
- Developed Unity/C# MANPAD UI proof-of-concept; delivered working prototype to client

Award: Silver Award for NASA WorldWind debugging contribution

Software Engineer / Unity Developer

Foretell Reality (Glimpse Group), New York, NY | July 2018 – August 2020

- Built social VR platform from scratch using Unity C# and Photon SDK; launched on Oculus Store
- Developed cross-platform support for 5+ VR headsets within single Unity codebase
- Developed Unity-to-PostgreSQL integration via Python Flask REST API; enabled user metrics and diagnostics

and Health, AI/ML
Integration

EDUCATION

MS, Software Engineering |
Stevens Institute of
Technology | 2012
BE, Engineering
Management | Stevens
Institute of Technology |
2010

CLEARANCE

Secret

- Built custom VR medical simulations and virtual classroom with 360° video streaming
- Developed "Arcana – The Lost Library" educational VR experience end-to-end; shipped complete product

Freelance UI/UX Consultant & Developer

Independent, Remote | October 2015 – June 2018

- Built Unity voice-command demo using Microsoft LUIS; delivered interactive heart visualization prototype
- Provided UI/UX consultancy for Seedlr.com; guided early platform development
- Contributed to open-source CSS framework sleek.ui; improved .NET websites for clients

Project Coordinator – Online Production

GraphicPeople / Wunderman Bangladesh**, Dhaka | October 2012 – February 2014

- Managed team of 20 developers delivering Dell and Motorola digital campaigns across Asia Pacific
- Led Microsoft Windows 8 launch campaign; maintained 95% team utilization rate
- Served as primary contact for account management across Asia Pacific region

NOTEWORTHY HIGHLIGHTS AND PROJECTS

Open Source Project: Launched a preview version of .net Blazor based UI framework with AI helper built-in ([Koshai/BuzzFramework: It an AI helper UI framework for Blazor](#))

MIT Reality Hack 2025: Won Best Hardware Hack and Augmented Design tracks for Tac-Man (<https://devpost.com/software/tac-man>)

Product Launch: Built and launched Jaquizy, AI-powered quiz generator (<https://www.jaquizy.com>), built using VueJS and Python Flask connected to PostgreSQL backend. Support both OpenAI and Ollama for offline usage.

Oculus LaunchPad Alumni: Selected for Meta's VR developer program

Games for Change 2019: Special Recognition for "Mosquitos vs Humans" XR Brain Jam (<http://syedakbar.co/project-mosquitoes-vs-humans/>)
